

Western Australia Level 5-6 Science Outcomes for Eaten Alive

Level 5 Science Outcomes

STRAND	OUTCOME STATEMENT AND POINTERS	EATEN ALIVE EXHIBITS
Life and Living	<p>The student understands the models and concepts that are used to explain the processes that connect systems and lead to change.</p> <p>This will be evident when students, for example:</p> <ul style="list-style-type: none">• use concepts and models to explain processes that maintain balance in an ecosystem, such as:<ul style="list-style-type: none">- explain interactions between living things and the external environment that occur over time.	All exhibits

Level 6 Science Outcomes

STRAND	OUTCOME STATEMENT AND POINTERS	EATEN ALIVE EXHIBITS
Life and Living	<p>The student understands the concepts and principles used to explain the effects of change on systems of living things.</p> <p>This will be evident when students, for example:</p> <ul style="list-style-type: none">* apply principles to explain the effects of environmental change on living things and ecosystems.* quantify relationships between systems, living things and the environment.	All exhibits
